- ✓ Vodafone, EE, O2 & Three Mobile SIM Plans
- ✓ IT Services
- ✓ WhatsApp for Business

Key Benefits for Your Dental Practice.

SmartVoice On-Hold Marketing

Keep your callers interested and highlight services like teeth whitening or Invisalign with SmartVoice. Powered by AI, it produces professional messages using over 450 voices and 5,000 music tracks, increasing bookings and enquiries by up to 15%.

WhatsApp for Business

Connect with patients using a platform trusted by 80% of smartphone users. Our secure WhatsApp service allows you to send appointment reminders, reply quickly, and share documents, making communication simpler and improving the patient experience.

Call Queuing with Auto Callbacks

Make busy call times easier to manage with call queuing and automatic callbacks. Patients can stay in the queue or ask for a callback without losing their place, helping to keep them happy and taking the pressure off your reception team.
