

## Our Industries. General Office.

Our comprehensive offerings include phone systems, internet services, WiFi solutions, and mobile communication services for businesses across the UK.

### Call Recording.

Our call recording solution provides peace of mind by allowing both customers and clients to easily access and review recorded calls, enhancing training and compliance.

### Multi-Site Solutions.

Managed in the cloud, our phone systems provide seamless access to features for employees in multiple offices or working remotely, enhancing business agility and adaptability.

This approach ensures your business remains agile and adaptable. Adding new users, incorporating sites, or making changes is easy with just a few clicks.

"We've partnered with F One for nearly a year, and it's been a rewarding experience. Their team is professional yet friendly, ensuring we fully benefit from their solution. I highly recommend them."

Lisa Jones  
The Coffee Bean Company

### Professionally Recorded Marketing.

Keep your customers informed about your goods and services during their wait with our professionally recorded messages, seamlessly integrated into your phone system.
