

Our Core Products. WhatsApp Business Platform.

Omnichat WhatsApp business platform, provided by F One, offers several compelling advantages for small businesses across the UK, focusing on enhancing customer engagement, efficiency, and sales.

Team Collaboration.

Easily talk to your team, handle many chats at once, and respond to customer questions quickly with shared notes and templates. This ensures consistent and efficient service across your business.

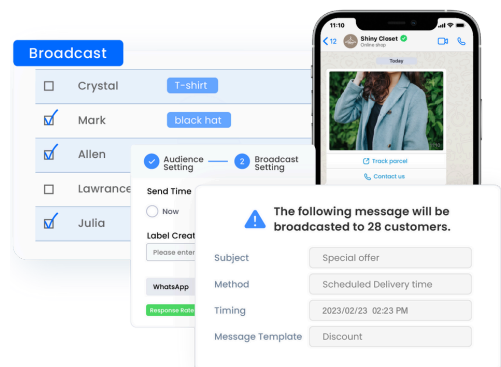

Customer Data Integration.

Gather and use important customer information to enhance service and target marketing efforts more effectively. This integration allows for personalised interactions and better customer insights.

Broadcast Messaging.

Send personalised messages to large groups of customers simultaneously and track the success of these messages. This feature helps you reach out to customers quickly and efficiently.

Intelligent Chatbot.

Develop a simple automated chatbot to handle common queries, saving time and ensuring customers receive immediate responses. This improves customer satisfaction and frees up your team for more complex enquiries.
